

# NOTICE !!

**To All Debit Card Holders  
Effective May 11, 2017**

Regarding International Transactions

Over the past several years we have experienced an abundance of counterfeit debit card fraud. These counterfeit cards have been used in countries like India and South Africa. In addition to the EMV technology that we have implemented and the limit on the number/amount of transactions that can happen through our system, the Board of Directors and Management have decided to block ALL foreign transactions when using your debit card. In this day and age we, the board, try to protect and safeguard the members from these types of situations. This is just another step that we can make to try and eliminate the threats to our credit union. We are sorry for any inconvenience this block may cause but it will be for the betterment of the credit union as a whole.

**Thank You  
Board of Directors and Management**
